Conversation Starter –

- **Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

Fees will range from a flat fee or to a fee that is tied to the account transaction size, usually expressed in dollars. Transaction-based fees may be negotiated and size may matter and may therefore result to investor incentive.

Most common fees and costs are associated with transaction fees, management fees and commissions.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Given its client base, the Firm believes that the way it makes money does not conflict with the interests of its customers. Should you deem that a conflict of interest arises or is imminent—whether that be due to the Firm’s policies and procedures or an action by a Registered Representative, please let the Firm know about it immediately.
